OTHER WAR SHIPS

Ordered to Take the Place of Those Wrecked at Samoa.

DESCRIPTIONS OF THE RICHMOND, THE ALERT AND THE ADAMS.

They are in No Way Equal to the Vessels Sunk by the Hurricane—Instructions Issued to Hurry the Preparations—Germany Also Sending Vessels to Look After Her Interests.

WASHINGTON, April 3.—The navy department is making every effort to secure an adequate representation at Samoa. Orders were sent out Monday to have the Richmond, Alert and Adams sent to Apia at the earliest practicable moment.

The Alert is at Honolulu all ready to sail when she coals and provisions, and can reach Samoa in a month or forty days.

The Richmond is not in such a favorable place, being at present in the River Rio de la Plata, on the east coast of South America and must go around Cape Horn.

The Adams is under repair at the Mare Island, California, navy yard. Ten days or two weeks will serve to complete the repairs, and after a few days additional consumed in taking in stores and coal she may sail on her voyage, which will take about a month.

The Yantic, now at Brooklyn, will be ready to sail on the 10th inst., probably to relieve the Richmond.

While the vessels ordered to Samoa are by no means equal to the three vessels which were wrecked, and are of antique type compared with the vessels of the German East African fleet which have been ordered to Apia.

The old Richmond is by far the largest of the vessels that will go down. She was built in Norfolk in 1888, and is of 2,700 tons burden, 222 feet long, 42½ feet broad and 17 feet, 4 inches draft. Her speed is set down at 9½ knots when in trim, and she is doubtless foul and consequently much reduced in speed by her stay in the South Atlantic waters.

She is commanded by Capt. A. V. Reed, Lieut. Commander Louis Kingsley and Lieuts. W. H. Everett, J. H. C. Coffin, F. H. Crosby, J. M. Robinson and J. O. Nicholson. Her complement is twenty-nine officers and 321 men. The battery is headed by twelve 10-inch smooth-bore, one 8-inch muzzle-loading rifle and one 60-pound breech-loading rifle, two 20-pound breech-loaders and some smaller secondary guns.

The Alert is a 1,000-ton vessel, built by John Roach in 1875. She carries twenty-one officers and 127 men. She is rated at ten knots, is 175 feet long by 32 feet beam, draws 12 feet 9 inches of water and carries a battery of one 11-inch and two 9-inch smooth-bores, one 60-pound muzzle-loading rifle and five guns in the secondary battery. Her officers are Commander James D. Graham and Lieuts. John Garvin, F. E. Greene, C. T. Moore, J. P. Parket, C. D. Bostick and William G. Hannum.

The Adams is rated at 1,375 tons. She was built in 1876, at Boston, by Donald McKay. Her length is 185 feet by 35 feet beam and 14.3 draft. She is set down as a 9.8 knot ship, with a battery of four 9-inch smooth-bores, one 8-inch muzzle-loading rifle, one 60-pound muzzle-loading rifle and five guns in the secondary battery. Her detail of officers is not yet made up, but she was last under command of Commander Richard P. Leary, who has already achieved fame by his firm stand in exciting times at Samoa. She carries twenty officers and 116 men.

The detail for the Adams was almost completed Monday afternoon. She will be under the direction of Commander Edwin T. Woodward. There will be no new order in regard to Samoan affairs given to the commanders of the vessels. Admiral Kimberly will remain at Apia, and will continue in command of the squadron. He had instructions issued to him before his departure, and the situation has not changed since then. The admiral has considerable discretion vested in him, and may, to a considerable extent, exercise his own judgment in regard to what shall be done.

Should any thing occur to render new instructions advisable they can be prepared and sent to Samoa long before the war vessel get there. The thing now needed there is ships, not instructions. It is not improbable that the Samoan conference will have met and settled the entanglement between the United States and Germany before our vessels reach Samoa, and any new orders sent to Admiral Kimberly will doubtless largely be governed by the proceedings of the conference.

Renewed instructions have been sent to San Francisco to hurry forward the preparations of the Charleston and every effort will be made to get her guns and carriages transported overland at the earliest possible moment. The guns are ready at the proving ground at Annapolis, and the carriages are about ready at the Washington navy yard.

The secretary of the navy has cabled to Auckland that the men of the wrecked naval vessels who are sent home are to come to San Francisco.

England and Germany Against Us.

WASHINGTON, April 3.—There is direct information that the Samoan conferees do not expect that their position will be accepted by the German chancellor.

It will be substantially as set forth by Commissioner Bates in his North American Review article, and is, in brief, the well known American position. The conferees fear that the errand of Herbert Bismarck to England has been to see if an understanding may not be reached by which the two great powers shall stand together against the United States in case it should be necessary to do so. In support of this theory is the sudden detail of the three German vessels to Samoa, the very night when the news of the Apia disaster was out.

The slowest of them is as fast as the Olga. Against these can only be matched the Richmond, now at La Plata, South America; the Alert at Honolulu, and the Adams at San Francisco. The commissioner hopes that some phase of European politics possibly to arise by the time the conference meets at Berlin may aid them.

LABOR NEWS.

Numerous Strikes, Reductions and Demands Inaugurated April 1—Eight and Nine Hours for a Day's Work.

ST. LOUIS, April 3.—About 1,200 of the 2,000 carpenters of this city went on strike Monday morning. The causes leading up to this action are a demand of the men for an eight-hour day and forty cents per hour as standard wages. The bosses seem to have generally conceded the eight-hour day, but are divided about the wages, many of them being unwilling to give more than thirty cents per hour. In addition to this the men are much agitated over the fact that the bosses "persistently ignore the Brotherhood of Carpenters," and they say they are determined to have recognition as an organization.

W. H. Kilver, vice president of the Brotherhood of Carpenters and Joiners, who has been in the city several weeks, has been active in working up the movement, and will have charge of the strike.

The striking carpenters met at Central Turner hall during the morning and appointed committees to look after the interests of the strikers. The men are firm in their position, and, as the boss carpenters decline to recognize the demands of their former employees, a bitter struggle is probable. Work on large number of buildings has been suspended, and there is much solicitude as to the outcome of the trouble.

New York Framers and Painters.

NEW YORK, April 3.—Monday the Framers' union submitted its agreement to the employers in this city for an equalization of wages here, in Brooklyn and Jersey City, an agreement binding the employers to pay forty cents per hour for day work and double price for overtime and Sunday work. This was submitted to the employers who had not previously signed the agreement, and is to be binding until May next. About twenty-five of the largest shop have given in, but in some shops the proposition was refused, and about 150 men went out. Reports from six shops showed that the men had succeeded in getting their demands. The strikers are confident of success, as this is the busy season.

The German painters' union started Monday their demand for a uniform rate of \$3.50 for nine hours' work.

PROVIDENCE, R. I., April 3.—The Berkely weavers are still out and are greatly encouraged by words of sympathy from the Catholic priest of the village delivered during his Sunday discourse. They claim also to have offers of financial help. Monday the mule spinners in the same mill, thirty in number, left work. They claim that their wages dropped \$2 per week while working on yarn which they think is finer than the numbered size. The order was issued to change from size 42 to 58 yarn, and the spinners went out until they could consider the matter.

No Trouble in the Coke Regions.

PITTSBURG, April 3.—The strike or trouble over a reduction in wages in the coke region, predicted for Monday, failed to materialize. A private telegram from one of the leading superintendents in the region stated that there was no trouble at any of the works. The Frick company has reduced wages as per the provisions of the sliding scale which it has with its men, but the other leading operators have not made any reduction.

Big Iron Strike Threatened.

PITTSBURG, April 3.—The roughers and catchers employed by the various iron mills in this city and vicinity, are going to ask for an advance in wages. If they do not get it they claim they will inaugurate a strike that will extend to every mill here where iron is rolled. A meeting of all the roughers and catchers in this city has been called for the 14th inst., in Salisbury hall, South Side.

Pennsylvania Miners Still at Work.

SCOTTDALE, PA., April 3.—A meeting of the National Progressive Miners' union was held here Monday, when it was decided to remain at work for the present. A resolution was adopted requesting all operators to pay by the hundred bushels instead of by the wagon. There is little prospect of a general strike in the region until after the Knights of Labor meeting on the 13th inst.

The Union Question Caused It.

PITTSBURG, April 3.—A strike was inaugurated at the Dithridge company glass works in New Brighton, Monday. About 220 men are out. The strike was caused by the firm refusing to discharge a workman who had been expelled from the union for non-payment of dues.

A Reduction of Wages.

HARRISBURG, PA., April 3.—A reduction of 5 to 10 per cent. in the wages of employees from nine to eight, with same pay per day before Monday, in accordance with a notice previously given. The reduction affects 3,500 men.

Iron Mills Starting Up.

BETHLEHEM, PA., April 3.—The various mills of the Bethlehem Iron company has resumed operations with full force. The wages of puddlers were reduced from \$3.80 to \$3.45 per ton.

Painters' Strike.

DENVER, CO., April 3.—Over 200 painters struck Monday for a reduction of hours from nine to eight, with same pay per day as before. The employers have telegraphed east for men.

Reduction in the Hazleton Region.

WILKESBARRE, PA., April 3.—A Pardie & Company, private coal operators of the Hazleton region, Monday reduced the wages of their 1,500 employees 3 per cent.

Strike for Nine Hours.

BUFFALO, April 3.—The carpenters and painters of this city are on a strike to end the nine hour day. About 1,500 men went out.

Always is Going On.

NEW YORK, April 3.—The steamship Claribel, from Hayti, brings nothing definite from there. Fighting was going on in the interior, but nothing was known as to the result.

BITTER FEELING

Said to Exist Between the President and the Senate

BECAUSE OF THE REJECTION OF HALSTEAD'S NOMINATION.

Blaine and Sherman Reported to Have Asked for His Appointment During Recess — Klein's Testimony Refutes the Charges of the German Officers—Presidential Nominations—Notes.

CINCINNATI, April 3.—A special to the Times-Star from Washington, says:

It is perhaps fortunate that an adjournment of the senate had thus early. There is no question that some unpleasantness between the president and the senate has been developed by recent appointments. The case of Mr. Halstead is to the point. Senator Dawes is believed to have been influenced to vote against confirmation by the eloquence of Senator Evans.

Mr. Evans himself was probably disinterested, but close friends of Senators Ingalls, Plumb and Teller do not hesitate to say that these men voted against confirmation in order to let the administration know that they are very much alive. So it is said to be with Senator Quay, who is understood to desire to oppose for once at least an appointment with no politics in it.

It is believed to be the apprehension lest some other nominations may be rejected by the senate that induces the president to stop here. The gossip is that Senators Plumb and Teller, whose candidate for superintendent of the land office is ex-Senator Chilcott, of Colorado, who fought the nomination of anybody else, and that President Harrison, after the adjournment, will appoint ex-Governor Stone of Iowa, Secretary Noble's candidate and his own. So of the public printer.

So many senators have candidates of their own that they are determined to push to the end that the successful man must serve on a commission from the president. The chances are that Osborn of California, or Nichols of North Carolina, will succeed Benedict, and that Meredith will succeed Mr. Graves in the bureau of printing.

United for Halstead.

WASHINGTON, April 3.—Senator John Sherman and Hon. James G. Blaine were the most interesting pair of visitors that President Harrison saw Monday. A fellow feeling for Halstead has made the two great rival chieftains kin. They drove up to the White House in Sherman's private carriage and walked in side by side in confidential conversation.

The object of their visit was to state to the president that, in their opinion, Halstead's name ought to be sent to the senate again, and that in the event of a second rejection or failure to confirm he should be appointed during the recess anyhow. Messrs. Sherman and Blaine contented themselves with this expression of their opinion, but did not press Harrison for an immediate decision.

The president asked how Halstead felt about it and whether he cared for the recess appointment, and was informed that he had not been consulted, but that he doubtless would accept if the president desired it. Gen. Harrison is said to have expressed himself as being greatly troubled over the bad party break in the senate and said he wanted time to consider the matter further.

His visitors retired uncertain as to what the president would do. Some of Halstead's friends think that if he were appointed in the recess and his name went to the senate next winter he could be confirmed by the votes of eight senators from the newly admitted states.

Klein's Testimony.

WASHINGTON, April 3.—John C. Klein, the correspondent at Samoa, visited Washington twice this week, having been summoned by the state department for the purpose of testifying in relation to the outrages committed by the Germans in that country while he was there, and also about Samoa matters in general.

He also explained his connection with the events leading up to the battle of Fagali, fought December 18, when the twenty-three German sailors were killed, and told to what extent he participated in the affair. His testimony completely refuted the charges made against him by the Germans of having fired upon their sailors and ordered the soldiers of King Mataafa to do so.

The affidavits of Mr. Klein and of three of Mataafa's soldiers, who were with him at the battle of Fagali, made before United States Vice Consul Blacklock at Apia, will be taken to Berlin by the commissioners appointed by the United States. Mr. Klein had three private interviews with Secretary

THOS. J. CHENOWETH, Chairman Ex. Com.

COLONEL BRADLEY says he intends to make the race for Governor to succeed General Buckner. He will find a more determined foe than he did in 1887.

WHAT'S the matter with Kentucky Republicans? Three of their newspapers "went up the spout" last week—the Augusta Republican, the Columbia Herald and the Danville Olive Branch.

Mr. T. H. THOMPSON has entered the race for Jailer. His announcement appeared yesterday. Mr. Thompson is a young farmer residing near Washington, and this is the first time he has ever sought office. We bespeak for him at the hands of the party a candid consideration of his claims. He is well qualified for the position he seeks, and the office will be well attended to, if he should be placed in charge of it.

ANOTHER candidate for County Assessor comes to the front to-day in the person of Mr. Charles F. Reed. Mr. Reed is a young farmer, and enjoys an extensive acquaintance throughout the county. He is well and favorably known, and is a clever fellow, making friends wherever he goes. He is an enthusiastic Democrat, and in addition to this he is well qualified for the office he seeks. If Mr. Reed should be honored with the position, he promises a faithful discharge of his official duties.

A LAW of Kentucky explicitly provides, under penalty, that physicians shall annually furnish the County Clerk a full list of all the births which they have supervised or superintended during the year. This law, which is a very wise and good one is practically a dead letter, but it should be enforced. Grand juries should be charged concerning it, and the doctors made to come to the scratch. This register, if correctly kept, will be of inestimable advantage to future generations.—Lexington Transcript.

It has been a custom of the Democratic party in Mason County for years to honor a good and faithful official with a hearty endorsement for a second term. If that custom is observed in the contest that is now on, Mr. C. D. Newell will be the nominee of the party for County Attorney. He is serving his first term, and all will admit that he has made a splendid record. Ever watchful of those interests of the county entrusted to his care, he has been prompt and faithful in the discharge of his official duties. He has proved himself an able and zealous public servant, and deserves a warm endorsement at the hands of the party. His announcement appears in this issue.

AUDITOR HEWITT has signified his intention to bring suit against the Covington Commonwealth and the Owensboro Messenger for libel. It's a little strange that Mr. Hewitt didn't take any action in this matter until the Louisville Times demanded that the time had come for him to do something, that he couldn't remain silent any longer. We don't suppose the Commonwealth and Messenger care a picayune how many suits Mr. Hewitt sees fit to file, as long as that sworn testimony of his is available. Our candid opinion is that this sworn testimony of his will knock him out in any court he sees fit to bring his suits. And we are decidedly of the opinion also that Mr. Hewitt will bitterly regret ever taking his alleged grievances into court.

A LOT of Democratic editors have been making fools of themselves over the refusal of the Senate to confirm the appointment of Halstead to be Minister to Germany. They have been actuated by spirit of "journalistic courtesy," no doubt, but we can't see why the action of the Senate in this matter should cause each an outcry in the newspaper world. Surely, President Harrison can find an abler and better man in his party for the position. Mr. Halstead's past history shows that he is too narrow and too bigoted a person to represent this country at the German Court. He is not a fit man for the place. He is not a representative of the broad and liberal spirit that should characterize a public man. He has abused Lincoln, Grant and nearly all the prominent members of his party at some time or other, and his paper has done as much to keep alive the bitter sectionalism of the war as any other journal in the country. The Senate did right in rejecting him, and he knows it and that is what hurts him. He does not deserve any honor.

Mr. Sewall has a 10 Strike.

Mr. George W. Sewall, of Auburn Park, Ills., in the last drawing of the Louisiana State Lottery, held one-tenth of ticket No. 40,788, the second capital prize of \$100,000. He said: "I was asked incidentally by a friend to purchase a ticket in this drawing. I did so, paying one dollar for the same, and gave the matter no thought until I received my money through the Adams Express Company. Mr. Sewall has already invested the proceeds of his lucky draw in Cook County, Ills., bonds—Chicago, Ills., Arkansas Traveler, F. B. 9.

The evaporating fruit industry was begun in Western New York only about fifteen years ago, and yet within forty miles of Rochester there are nearly 2,000 fruit evaporators, besides many small dry-houses on farms, and the business is still rapidly growing. Of apples alone, 25,000,000 pounds were evaporated here, and the total dried product of all kinds of fruits amounted to 37,750,000 pounds, for which producers received \$1,485,000. More than 4,000,000 pounds of dried fruit were exported from this region last year, and Rochester fruit is in demand at such remote markets as Australia.

Railroad News.

The steel rail-works in Chicago, when consolidated, will be able to supply all the rails needed in the next ten years west of the Mississippi.

John Doherty, engineer of the Richmond, Nicholasville & Beattyville, says the road will be completed in September, and that work is now progressing very rapidly.

What is to become of the Kentucky Central road is now one of the queries. In the newly-elected directory appear the names of M. E. Ingalls, General Samuel Thomas and Calvin Brice.—Louisville Post.

In the year 1888 the Pennsylvania lines carried 74,000,086 passengers one mile, against 68,157,705 carried one mile in 1887 and but two passengers in this immense mileage were killed from carelessness on the part of the roads or their employees.

The last issue of the Railroad Gazette shows that in February there were on the roads of this country 117 accidents, in which twenty-three persons were killed and eighty-eight injured. Not a person traveling on a passenger train was killed. But three of the accidents reported occurred on Indiana roads.

It is stated that "President Ingalls, of the Chesapeake and Ohio Railroad, has ordered a general change in the divisions of the road. Charleston is to be made the end of the First Passenger Division east from Cincinnati instead of Huntington, and Russell, opposite Ironton, the end of the First Freight Division instead of Huntington. The entire line is shortly to be laid with seventy-five-pound rails, and heavy engines are being put on, allowing increased speed."

MR. GEO. MYALL, of Mayslick, sent a 94-ounce goose egg to this office a week or so ago. Mr. C. A. Tucker, of Lewisburg, brought in one yesterday that is no larger than the ordinary "hen fruit." He also left at this office a curiosity in the shape of a black duck egg, laid by a black duck. He has two of these black ducks and all their eggs are black.

DR. H. A. M. HENDERSON'S LECTURE.

The New York Preachers' Meeting had the rare privilege of listening to an exposition of the Civil war, from an honest and able standpoint, by Dr. H. A. M. Henderson, subject: "The Swords of Grant and Lee." His felicitous hits bring down the house with a rush; his sentences burn them into memo; his whole manner is that of a truthful, noble and earnest man.—Pittsburg Advocate.

Dr. Henderson will deliver this popular lecture at the court house Friday night, April 12, for the benefit of the M. E. Church. He should be greeted by a crowded house. Admission 50 cents; children under 15 years 25 cents.

MISS CHARLOTTE McATEE died this morning at 10 o'clock at the home of her brother, Mr. Wm. McAtee, near Clark's Station. She had been ill only a few days. The deceased was about eighty years of age, and was an aunt of Mrs. A. H. Thompson, of this city. Funeral to-morrow at 10 a. m. at the home of Mr. Wm. McAtee, services by Rev. R. B. Garrett. Friends of the family invited. Burial in Mason County Cemetery.

Progressive and ever alive to their best interests, Professor Johnson and his school met last Saturday for the first time in their new building, which is being erected in this community. You will find them among the gaudy number of friends, and can fully testify to the interest of the occasion. After some very appropriate and interesting recitations, music and essays, all repaired to the yard, where the entire campus was surrounded by maples. At each tree a short address was delivered or song was sung as it was raised to the honor of some eminent person or cause. The exercises throughout were unique and enjoyable, and the results will be living monuments to the energy of the teacher and pupils of the first school in our new building.

Now in Africa.

AN ARAB REBEL LEADER SAYS THEY
WILL BE DRIVEN OUT.

Assistance Will be Extended to Roman
Catholic Missionaries—The Mind of the
King of the Netherlands Unbalanced.
Suicide of a Countess—Other Interest-
ing Foreign News.

LONDON, April 3.—Two letters have just been received in London from Mr. De Courmont, who is at Bagamoyo, opposite Zanzibar. One of the letters state that Bushiri, the Arab rebel leader, told Father Roy, one of the Catholic missionaries, that he once had faith in the English missionaries and protected them, but now that the English and Germans were allied in their hostilities against the country, he was convinced that the Englishmen were enemies and that he would treat them as such. On the other hand Bushiri has afforded the Roman Catholic missionaries' facilities for sending a caravan into the interior for the purpose of establishing a new station in Klimandjaro.

The officers of the British East Africa company, the missionary states, were quietly pursuing their work at Mombasa. He had heard from the natives that a railway was being rapidly pushed into the interior, work on which had been disturbed by the insurrection. Bushiri assured the Roman Catholics of his friendliness, but as for the English and Germans he declared that he would not rest until every one of them had been cleared out, not only of East Africa, but also out of the whole of Central Africa.

The King of the Netherlands Insane.

LONDON, April 3.—The truth about the king of the Netherlands has come out. Why such a mystery has been made of it is inconceivable. He has been quite out of his mind for months, with occasional glimpses of sanity. The doctors informed the government long ago that there was no chance of his rallying and that ultimately he would become quite mad, under which circumstances his health might improve and his life be prolonged, which now is said to be not unlikely. The queen long shrank from assuming the regency, which she knew would announce to the world her husband's condition. But the position has at last been forced on her. Latterly the king, who at first could not bear her out of his sight, conceived a most violent dislike to her, which made it impossible for her to nurse him as hitherto.

Russia Demands Explanations.

ST. PETERSBURG, April 3.—M. Hitrovo, Russian minister at Bucharest, has been instructed to demand explanations from the Roumanian government concerning the expulsion of Russians from Roumania, and the general anti-Russian procedure of the Roumanian cabinet.

British Naval Increase Approved.

LONDON, April 3.—The committee of the house of commons, by a vote of 251 to 75, Monday night approved the proposals recently submitted by Lord George Hamilton, first lord of the admiralty, for increasing the strength of the navy.

Countess Shoots Herself.

VIENNA, April 3.—Countess Josephine Radetzky committed suicide Monday by shooting herself with a revolver.

It is stated in English political circles that Lord Randolph Churchill prompted the Tories to make him their candidate for the central district of Birmingham against Mr. Bright in order to secretly sow dissensions between the Liberal-Unionists and Tories.

It is a sign of the times that the social question is becoming much more important in English political elections nowadays than formerly. All the speakers in the recent Enfield election had a great deal to say about the condition of the poor, and their advocacy of remedies for it.

An exciting contest is expected over the parliamentary election in the central Birmingham district lately represented by John Bright. The Liberals have selected a candidate to run against Mr. Bright's son and the Tories, the latest report says, will endeavor to run Lord Randolph Churchill for the seat.
